Source: ECB MFI interest rate statistics.

1) In this table, 'up to' means 'up to and including', i.r.f. = initial rate fixation.

2) Includes non-profit institutions serving households, with the exception of the item on sole proprietors and unincorporated partnerships, which is a breakdown of the household sector only.

3) For this instrument category, new business and outstanding amounts coincide. End-of-period rates.

4) Excludes revolving loans and overdrafts, convenience and extended credit card credit.

5) Data are collected as of December 2014 under Regulation ECB/2013/34.

6) The APRC covers the total cost of the loans. These total costs comprise both an interest rate component and other related charges (the cost of inquiries, administration, preparation of documents, guarantees, etc.).

Source: ECB MFI interest rate statistics.

1) In this table, 'up to' means 'up to and including', i.r.f. = initial rate fixation.

2) Includes non-profit institutions serving households, with the exception of the item on sole proprietors and unincorporated partnerships, which is a breakdown of the household sector only.

3) For these instrument categories, new business and outstanding amounts coincide. End-of-period data. These categories are not fully comparable as data are collected according to different regulations.

4) Excludes revolving loans and overdrafts, convenience and extended credit card credit.

5) New business volumes of loans to households for consumption and for house purchase are used as weights for the calculation of the corresponding annual percentage rate of charge (APRC). Some national central banks grant derogations for the reporting of the APRC vis-à-vis non-profit institutions serving households; in this case the volumes of loans to non-profit institutions serving households are excluded from the calculation of the APRC.

6) Data are collected as of December 2014 under Regulation ECB/2013/34.

Source: ECB MFI interest rate statistics.

1) In this table, 'up to' means 'up to and including'.

2) For this instrument category, new business and outstanding amounts coincide. End-of-period rates.

3) For this instrument category, households and non-financial corporations are merged and allocated to the household sector, since the outstanding amounts of non-financial corporations are negligible compared with those of the household sector in all participating Member States.

Source: ECB MFI interest rate statistics.

1) In this table, 'up to' means 'up to and including', i.r.f. = initial rate fixation.

2) Includes non-profit institutions serving households, with the exception of the item on sole proprietors and unincorporated partnerships, which is a breakdown of the household sector only.

3) For this instrument category, new business and outstanding amounts coincide. End-of-period rates.

4) Excludes revolving loans and overdrafts, convenience and extended credit card credit.

5) Data are collected as of December 2014 under Regulation ECB/2013/34.

1) In this table, 'up to' means 'up to and including'.

2) For this instrument category, new business and outstanding amounts coincide. End-of-period rates.

3) For this instrument category, households and non-financial corporations are merged and allocated to the household sector, since the outstanding amounts of non-financial corporations are negligible compared with those of the household sector in all participating Member States.
