Table 2: Settlement media used by non-MFIs

Value of overnight deposits held at MFIs

The counterpart sector “non-MFIs” includes the component sectors “Central government” and “Rest of the world”. Thus, this indicator is not synonymous with the same term used in the ECB concept of narrow money supply (M1).

Narrow money supply (M1)

This indicator differs from the sum of the items “Value of overnight deposits held by non-MFIs” (euro area table 2) and “Currency in circulation” (euro area table 3). See the explanation above.

Outstanding value on e-money storages issued by MFIs

Covering MFIs without derogations under Article 9(1) of Regulation ECB/2013/33.
