

General notes: Belgium

Source for Table 1: Eurostat.

Source for all other tables: Nationale Bank van België/Banque Nationale de Belgique, unless otherwise indicated.

Table 1: Basic statistical data

Population

Annual average.

Table 2: Settlement media used by non-MFIs

Currency in circulation outside MFIs

Since the introduction of the euro banknotes and coins on 1 January 2002 these figures have been provided solely at an aggregated euro area level.

Narrow money supply (M1)

Since the introduction of the euro banknotes and coins on 1 January 2002 these figures have been provided solely at an aggregated euro area level.

Memo item: Outstanding value on e-money storages issued by MFIs, of which: software-based electronic money

Not applicable.

Table 6: Payment card functions and accepting devices

Cards with an e-money function

Data for 2015 show the deactivation by the end of 2014 of the Belgian e-money purse Proton.

Since 2016 certain ELMIs have started to offer back-office services to credit institutions for their prepaid cards. Therefore, a part of the number of e-money cards has shifted from the credit institutions to the ELMIs.

Since 2016 one reporting agent has migrated card programmes from two other countries to Belgium, creating a very large increase in the number of cards with an e-money function.

E-money card terminals

Data for 2012 and 2013 not available. Data for 2015 show the deactivation by the end of 2014 of the Belgian e-money purse Proton and its effect on the related terminals.

Table 7a: Payments per type of payment service involving non-MFIs (number of transactions)

Card payments initiated at physical EFTPOS or initiated remotely

2014 data remain incomplete because of the unavailability of the data from the reporting agents.

Domestic e-money payments with e-money issued by resident PSPs

Data for 2015 show the deactivation by the end of 2014 of the Belgian e-money purse Proton.

Table 7b: Payments per type of terminal involving non-MFIs (number of transactions)

At terminals provided by non-resident PSPs with cards issued by resident PSPs

Since 2017 it is possible to make the distinction between domestic and abroad.

Table 8a: Payments per type of payment service involving non-MFIs (value of transactions)

Card payments initiated at physical EFTPOS or initiated remotely

2014 data remain incomplete because of the unavailability of the data from the reporting agents.

Table 8b: Payments per type of terminal involving non-MFIs (value of transactions)

At terminals provided by non-resident PSPs with cards issued by resident PSPs

Since 2017 it is possible to make the distinction between domestic and abroad.

Table 9: Participation in selected payment systems

Target/Target2 Component

2017: Following closure of PHA (Proprietary Home Accounting), participants had to open an account in Target2.

Tables 10 and 11: Payments processed by selected payment systems

Retail system CEC, credit transfers

As from 2015, the distinction between “initiated in a paper-based form” and “initiated electronically” is no longer possible.
